

Tuesday 12th September

08:00	18:00	Conference Registration Open Active Age Business Breakfast
08:00	10:00	Briefing (free) - Northern Rock Hall, Sage
18:30	20:30	Welcome Reception - Hall1, Level 1 Balcony

Wednesday 8th September

Room :	Room 1	Room 2	Room 3	Room 4	Room 5	Room 6	
08:00	18:00	Conference Registration					
09:00	09:00	Conference Open					
09:30	09:45	Introduction & welcome					
09:45	10:45	Keynote - Tom Kirkwood					
10:45	10:50	SG - House keeping/Directions to rooms					
10:50	11:20	Morning Break					
11:20	12:20	Keynote - Greg Tegart					
12:20	13:50	Lunch Break					
		Telehealth/telecare - 1 Chair: Garth Johnson	Liveable Homes - 1 Chair: Shiela Peace	Assistive/Smart Technology - 1 Chair: Mark Hawley	Work and Ageing - 1 Chair: Jon Sanford	Transport - 1 Chair: Rory Cooper	Rehabilitation and Assistive Robots - 1 Chair: Tariq Rahman
13:50	14:20	Connect for Care: Enhancing Independence and Improving Well Being in later Life - Glenda Cook and Sanjeet Pakrasi	Environmental Barriers for Mobility in and Around the Home Gerd Andersson		Learn to Age with the University of the Third Age - Northumbria Region of USA	Design Characteristics of Older and Younger Drivers - Patrick Patterson, Manuel Mesa, and Hidetoshi Nakayasu	Development of Robot-Based Health Interactions For the SERA project: Increasing User Engagement Based upon the Transtheoretical Model - Sarah Creer
14:20	14:50	Using Telecare to Shift the Balance of Care in Scotland - Lorna Carr	Putting walls in their place theory to experimental design: using an engineering approach to develop architectural planning methods for assisted wheelchair users - B Abraham, R I Davison & G R Johnson	Assistive/Smart Technology Keynote - Prof Gregg C. Vanderheiden	Accommodating Workers Ageing into Disability: Findings From A Policy Delphi Study - Nathan W. Moon and Paul M.A. Baker	TBC - Phil Blythe, Newcastle University	Rehabilitation and Assistive Robots Keynote - Prof William S. Harwin
14:50	15:20	The Implications of Advancing Technology on Nursing Care and Older People - Guy Drewsbury	The Need for and Utilisation of Housing Adaptations - Desleight de Jonge, Linda Worrall, Susanne Iwarsson, and Louise Gustafsson	Development And Evaluation Of A Home Monitoring System For The Elderly. - David Greathead and Katie Brittain	The Impact of Job Accommodations on the Participation of Employees with Mobility Disabilities in the Workplace - Hsiang-Yu Yang	What Kind of Physical Load is Placed for Wheelchair Users in Sidewalks - Hiroshi Kitagawa	
15:20	15:50	Afternoon Break					
15:50	16:20	Telehealth/care Keynote - Prof Minna Isomursu	Understanding the Home Environment's Impact on Home Modification, Decision Making and the Impact of Home Modifications on the Dimensions of Home - Tammy Aplin	Proactive Context-Awareness in Ambient Assisted Living - Karen Lee	Assessing the Workplace remotely: is it Possible? - Jon Sanford and Traci Swartz	Towards Accessibility for All? Current Public Transit Trends - Anders Wretstrand	Personalised Fabrication: A Novel Approach for Foot Orthotic Design and Manufacture - Javier Munguia
16:20	16:50		Research-based Standards for Accessible Housing - Tine Helle	Technical Support for Family Care Givers - Anita Bjoerklund	Working into Later Life - Kasia Kurowska	An Audible LED Pole Signal with Ultrasonic Beams for Safe Crossing - Taizo Miyachi	User Experience With WREX- A Passive Upper Extremity Orthosis - Tariq Rahman
17:00	18:00	Interactive Session Reception					

19:00 22:30 Lumley Castle Banquet Event
 Board coach for Lumley Castle
 18:45 19:00 outside the Sage Gateshead (conference venue)
 22:30 23:00 Coach back to Hotels

Thursday 9th September

Room :	Room 1	Room 2	Room 3	Room 4	Room 5	Room 6
08:00 - 09:00	18:00 - 09:10 Conference Registration Conference Open and make way to first sessions					
09:10 - 09:40	Telehealth/telecare - 2 1. Symposium: Telehealth/telecare - It's not Plug and Play: The Challenge of Implementing Telehomecare in the Community - ANTHONY GLASCOCK Implementation of Activity Monitoring as a Tool for Homecare Workers in the Netherlands - Charles Willems	Liveable Homes/Assistive Smart Technology - 2 2. Symposium: Assistive Smart Technology/Liveable Homes - Home Modifications, Assistive Technology and Designs from a Cognitive Perspective - Lena Borell	Assistive/Smart Technology - 2 Chair: Greg Vanderheiden Accommodation Use and the Ageing Worker - Maureen Linden	Work and Ageing - 2 Chair: Garth Johnson The Ageing of Participation: Community, Work, and Social Networks - Paul M.A. Baker, John C. Bricout, Nathan W. Moon, Jessica Pater, and Barry Coughlan	Transport - 2 Chair: Margaret Bell DDA Compliant or Senior Friendly? – Designing a World for Older People - Garth Johnson	Intervention Effectiveness - 1 Intervention Effectiveness Keynote - Prof Helen Hoening
09:40 - 10:10		Accessibility in the Public Space as Perceived by People with Dementia - Anna Brorsson	Development of an Online Tool to Identify Assistive Technology for Ageing Workers - Robert Todd	The Personal Support Department – The Latest Essential Business Function - Steve Secrette	Transport: 1	
10:10 - 10:35	Morning Break					
10:35 - 11:05	Should Telehealth Move from Service Innovation to Service Adoption - Simon Brownsell	Assistive Technology as Cognitive Support in Desired Everyday Activities After a Stroke - Eva Lindqvist	SIDE - Barry Hodgeson	Work and Ageing: 1		Personalisation, Nutrition and Community Meals - Derek Johnson
11:05 - 11:35	Telehomecare Interruptus: Lessons Learned from Twelve Attempts to Implement Telehomecare in the Community - David Kutzik	The Cognitive Kitchen - Lena Borell	Assistive/Smart Technology: 1	Work and Ageing: 2	Transport Keynote - Prof Rory Cooper	Paper 1: Jeff Jutai
11:35 - 11:45	All back to Hall 1					
11:45 - 12:45	Keynote - Gary Moulton					
12:45 - 14:15	Lunch Break					
14:15 - 14:45	Telehealth/telecare - 3 Chair: Peter Gore User's Information Needs of a Technological Socio-sanitary System for Dependent Elderly People Affected by a Cardiovascular or Osteoarticular Disease - Stephanie Carretero and Eva Marti	Liveable Homes - 3 Chair: Shiela Peace Remodeling for Home Accessibility: Consumer Stories Online - Mary Yearns	Assistive/Smart Technology - 3 3. Symposium: Assistive/Smart Technology - Development of Self Management System for People with Long Term Conditions - PETER WRIGHT	Work and Ageing - 3 Chair: Jon Sanford Telework, Ageing and the Socially Inclusive Workplace' and 'The Ageing of Participation' - Paul M.A. Baker, John C. Bricout, Nathan W. Moon, and Jessica Pater	Transport - 3 4. Symposium: Transport - Ageing and mobility: Transport Solutions for Older people - Roberto Palacin	Intervention Effectiveness - 2 Strategies for Accessible Emergency Communications Adoption - Helena Mitchell and Salimah LeForce
14:45 - 15:15	Detection changes in health status with lifestyle monitoring - Steven Blackburn	More Independent Lives Through Better Design - David Siedel	Establishing User Requirements for the Development of a Personalised Self Management System - Annette Haywood		Challenges for an ageing population: overview and innovative approaches - Jim Edwardson	Newham WSD Trial: Qualitative Experiences of Telecare and Telehealth - Sheena Hobbs
15:15 - 15:45	User's Requirements of an Intelligent System for the Cognositive Stimulation of People Affected by the Alzheimer Disease Using Digital Terrestrial Television - Stephanie Carretero and Eva Marti	Understanding Innovation in Telecare: OLDES FP6 project - Rob Wilson	Adapting Therapy to Technology: SMART2 - Benjamin Rosser	Work Keynote - Prof Jacquelyn B. James	Policy Strategy in the UK - Nigel Dotchin, Department for Transport	Pressure distribution using Dynamic Pressure Mapping in different one arm drive wheelchairs - Anne Mandy
15:45 - 16:10	Afternoon Break					
16:10 - 16:40	Telehealth/telecare - 3 continued Chair: Peter Gore requirements elicitation for an ICT system to support care provision and enhance social inclusion - Steven Blackburn	Liveable Homes Liveable Homes Keynote - Judith Torrington	Assistive/Smart Technology Technology-directed Mode of Self Management Following a stroke - Nasrin Nasr	Home and Community Safety - 1 Chair: Chris Todd Keeping In Touch Everyday (KITE) Project: Developing Assistive Technologies with People with Dementia and Their Carers to Promote Independence - Louise Robinson	Transport Moving towards an older society: the situation in the US - Rory Cooper	Intervention Effectiveness
16:40 - 17:10	Using the dependability telecare assessment (DTA) tool - Guy Dewsbury		Embodying Self-management Principles in the SMART2 Interface - Silvia Torsi		Technology for elderly drivers - TBC	
17:10 - 17:40	Connect for Care Medication Prompts: Technical Demonstration - Sanjeet Pakrasi	Age Friendly Communities - People and Places 2020 - Charlotte Harrison	Development Of A Personalised Self Management System For People With Long Term Conditions - Richard Davies	Home and Community Safety Keynote - prof Susanne Iwarsson	Discussion	

19:00 - 22:30 Gala Dinner at the Sage

Friday 10th September

Room	Room 1	Room 2	Room 3	Room 4	Room 5	Room 6
09:00	09:00	Conference Open				
		Telehealth/telecare - 4	Liveable Homes - 4 Chair: Judith Torrington	Assistive/Smart Technology - 4 Chair: Mark Hawley	Physicians/Clinicians Role in promoting independence - 1 Chair: Rob Wilson?	Intervention Effectiveness - 3 Chair: Helen Hoenig
09:00	09:30		Universal Design in Housing: It's not about Grab Bars - Jane Bringolf	Assisting Cognition For People With Brain Injury: Development Of A Memory Clinic - Clive Thursfield and Jemma Newman Can We Use the Relationship between Physiological Measurements and Activities of Daily Living to Infer Health Status? - Shuai Zhang	Physicians/Clinician roll in promoting independence Keynote - Louise Robinson	Why Going Forward with Telehealth Means an Initial Retreat - Jill Thompson
09:30	10:00	Connect for Care Medication Prompts: Technical Demonstration - Sanjeet Pakrasi	Unbundling the home hub - Graham Worsley			Outlining Powered Mobility Outcome Profiles for Middle-aged and Older Adults - Claudine Auger and Jeff Jutai
10:00	10:30		Liveable Homes: 1	Inclusion in Europe: A Compilation of Existing Technologies to Improve Autonomy of People with Disability - Maria Ferrando and Eva Marti	Physicians/Clinicians Role in promoting independence: 1	An Evaluation Of The Effectiveness Of Stand-alone, Easy To Use Assistive Technology In The Community: A Pilot Study - Philippa Sharpe
10:30	10:50	Morning Break				
10:50	11:35	Keynote - Steven Kyffin				
11:35	12:00	Thank you's - Peter Gore				
12:00	12:00	Conference Close				

Post-conference excursion to the Institute of Ageing and Health
